TUBERCULIN SKIN TEST (PPD)

As a condition of employment required by Maryland law all new employees must provide verification of being free from communicable disease.

If you have had a PPD tuberculin skin test or chest X-ray within 6 months of employment, you should submit the original copy of the report. If not, you must comply with the law prior to beginning of employment.

You may go to your family doctor or to either of the facilities listed below. The cost of the skin test is payable by the employee at the time of the service. A chest X-ray (if required) will be an additional cost also payable by the employee.
