March 1, 2023

To 2023 Graduate and Past Career and Technical Completer:

I wanted to take an opportunity to contact you about the opportunity to apply for scholarships that are made possible for students who complete a Career and Technical (CTE) Program of Study. Our records indicate that while in grade 11 you completed all the necessary course requirements while attending Parkside as a CTE student to complete a CTE program. Several of you inquired last year about applying for the CTE scholarships, and it was decided to let you apply for these scholarships once you were a Senior. This allows you to have additional information to provide on the CTE scholarship form and to better know your future career and college plans. I am enclosing a CTE Scholarship Form for you to complete. Please make note that in addition to the form, you also need the items listed under the "scholarship checklist". Once complete, you may send/bring your scholarship packet to the following:

Parkside CTE
Attn: R. Goodyear
1015 Beaglin Park Drive
Salisbury, MD 21804

If you should have any questions, please contact the Parkside CTE Office.

***Due date is April 14, 2023, at 3:00 PM. Incomplete Packets will not be submitted to the scholarship committee.**

Bryan D. Ashby, CMAA
Supervisor of Career and Technical Education
