# Let's Log in to Clever

Clever is our student portal for apps and links. In most cases, it will log students into sites, eliminating the need to remember additional usernames and passwords.

How can students log in from home?

Students should use the following URL: https://clever.com/in/wcps-district

Students should select,

"**Log in with Clever**".

If visible, please disregard. This is not enabled.

When a student logs in with **Clever,** they will enter their lunch ID for both the username and password.
